

## Software Engineering Groupwork Instructions

- To play the "Wandering in the Woods" game, follow these steps:
- Open the downloaded folder containing the game files.
- Launch the Command Prompt or Terminal on your computer.
- Navigate to the location of the downloaded folder using the cd command. For example:
  - `cd path\to\SE-FINALPROJECT\wandering in the woods`
- Once you're inside the game folder, run the game using the following command:
  - `python main.py`
- The game window will open, and you can now enjoy playing "Wandering in the Woods"!
